Dear Mr. Wiggins and Mr. Brown:

The Mississippi Division of Medicaid (DOM) and the Department of Human Services (MDHS) are submitting this Progress Report on the Medicaid and Human Services Transparency and Fraud Prevention Act (House Bill 1090). As required under Section 3, DOM and MDHS are filing a Progress Report on implementing the eligibility verification service which is due every six (6) months from the passage of House Bill 1090.

Both DOM and MDHS have received federal approval on the joint Advanced Planning Document (APD) for shared eligibility and fraud and abuse initiatives. We look forward to meeting the obligations of House Bill 1090. For DOM inquiries, please contact Rita Rutland (601) 576-4147. For MDHS inquiries, please contact Jacob Black (601) 359-4458.

Sincerely,

1 Legislative Request

This report is in response to the legislative requirement in the Medicaid and Human Services Transparency and Fraud Prevention Act (House Bill 1090). Section 3 requires:

“The department shall have the eligibility verification service required by this section implemented and operational not later than July 1, 2019. The department shall submit a report every six (6) months on its progress on implementing the eligibility verification service to the Chairmen of the House and Senate Appropriations Committees, the House Public Health and Human Services Committee and the Senate Public Health and Welfare Committee, and the House and Senate Medicaid Committees. The report also shall be provided to the other members of the Legislature upon request.”

This report was prepared by the Mississippi Division of Medicaid (DOM) and Mississippi Department of Human Services (MDHS).

2 Executive Summary

DOM and MDHS are pleased to submit this Bi-Annual Status Report on the progress on the Medicaid and Human Services Transparency and Fraud Prevention Act (House Bill 1090).

DOM and MDHS jointly launched the HHS Transformation Project or “HHSTP” in July 2017 to accomplish the goals of House Bill 1090 by the deadlines specified in Section 25. DOM and MDHS submitted the first required report on July 11, 2017. That report focused on satisfying all provisions of Section 2 and securing federal approvals and funding. This Bi-Annual Status Report will provide a status on all sections of House Bill 1090.

DOM and MDHS have completed/implemented approximately 40% of the applicable twenty-three provisions of House Bill 1090 and are currently on-track to implement the remainder of the provisions by the specified dates in Section 25. Table 1 below provides an overview of the status of these provisions with further detail in depicted in the corresponding narrative in Section 4.

3 Background

As required by House Bill 1090, DOM and MDHS delivered an initial report on July 11, 2017 on Section 2 and the progress toward submitting an Advanced Planning Document (APD). Building on work already in progress between the two agencies prior to the enactment of House Bill 1090 (Hope Act), DOM and MDHS signed a Memorandum of Understanding (MOU) to develop a vision of interoperability and shared services leveraging 90/10 Federal Financial Participation (FFP) and A-87 Cost Allocation Exception. DOM and MDHS finalized a joint vision in January 2017, drafted the APD in parallel to the 2017 Legislative Session, and submitted it shortly after the passage of the HOPE Act in April 2017. This approach enabled DOM and MDHS to act on the legislation quickly while giving the State the maximum time available to leverage the A-87 Exception, which is currently set to expire at the end of 2018. DOM and MDHS reported in the July 11, 2017 initial report that our Federal partners, the Centers for Medicare & Medicaid Services (CMS) and the Federal Nutrition Services (FNS) have approved the APD. The approved APD allows DOM and MDHS to receive FFP for approximately \$46M in IT investments with a State share of approximately \$8M or 17% (see the previous report for more details).

Because of the planning effort and the approved APD, DOM and MDHS jointly launched the HHSTP in July 2017 which is dedicated to accomplishing the goals of House Bill 1090 and the APD. DOM and MDHS are moving quickly and decisively to implement the provisions of House Bill 1090 and allow for as much time as possible to leverage the A-87 Exception and meet the deadlines. While the initial report in July was focused on progress specifically related to the APD submission requesting project funding, this Bi-Annual Status Report provides a reporting status for all provisions.

4 Current House Bill 1090 Status

As of June 2018, the current status for each of the Sections of the Medicaid and Human Services Transparency and Fraud Prevention Act is provided below. The Subsections that follow within this report follow the Sections as written in the bill, and all references beyond this point shall constitute references to Sections within the Medicaid and Human Services Transparency and Fraud Prevention Act, unless otherwise noted.

4.1 Short Title

Status: Acknowledged

DOM and MDHS acknowledge the act shall be known as the "Medicaid and Human Services Transparency and Fraud Prevention Act."

4.2 Integration of eligibility systems

Status: Complete

DOM and MDHS submitted an Initial Advanced Planning Document to CMS and FNS on April 3, 2017 as well as a final report on July 11, 2017. **All requests made in the Medicaid and Human Services Transparency and Fraud Prevention Act, Section 2 were included as part of the final Advanced Planning Document. Section 2 of the Medicaid and Human Services Transparency and Fraud Prevention Act has been completed.**

4.3 Real-time eligibility verification service

Status: In-progress

DOM and MDHS are in the process of capturing detailed requirements for developing a computerized income, asset, residence and identity eligibility verification service to verify eligibility, eliminate the duplication of assistance, and deter waste, fraud, and abuse within each respective assistance program. DOM and MDHS are carefully defining the aspects of the service, analyzing existing processes, and conducting analysis to maximize value to the State and minimize costs. DOM and MDHS have completed discovery sessions and have completed requirements for the real-time eligibility service through requirements and provisions in the Medicaid and Human Services Transparency and Fraud Prevention Act and CMS requirements. **As of the time of writing, a draft RFP is being reviewed by CMS and FNS as well as working through the Mississippi Department of Information Technology Services (ITS) procurement processes. Once those comment cycles have completed, the intent is to pursue a competitively bid contract for this service.**

4.4 Enhanced eligibility verification process

Status: In-progress

DOM and MDHS acknowledge the request to verify eligibility for assistance by using the enhanced eligibility verification service established in Section 3(2) of this act as well as periodically reaffirming assets where applicable. DOM and MDHS already terminate recipients within active programs with

receipt of information about recipients moving out of state within a maximum of 10 days. The remaining items in this Section are dependent on the enhanced real-time eligibility verification service (Section 3) being completed. **Updates to this Section will resume when Section 3 is completed.**

4.5 Enhanced identity authentication process

Status: In-progress

DOM and MDHS acknowledge the request to verify identity of applicants before moving to the next stage in the eligibility process and before the possible awarding of assistance. Additionally, the departments acknowledge the request to review the recipient's identity ownership periodically to verify and protect the identity of the recipient. DOM and MDHS have completed discovery sessions and are working through detailed requirements for a Common Web Portal (CWP) to be used by applicants and recipients from both agencies. The CWP will have an identity authentication component to ensure that applicants are "who they say they are" when applying. **The CWP is planned to be implemented and available by the end of the 2018 calendar year. It is the intent of the agencies to comply with identity authentication for all applicable individuals by June 30, 2019.**

4.6 Discrepancies and case review

Status: In-progress

DOM and MDHS are continuing to confirm that the requested processes and policies in this Section are implemented in their respective agencies. Both agencies use the best available information to process cases where discrepancies may exist. Once new information becomes known to the agencies, eligibility redeterminations are made. If discrepancies exist at that point, the agencies provide the client with written notification of the discrepancy and the recipient has 10 days to respond to resolve the discrepancy or change. The agencies view the enhanced verification service as another data source and will use the data provided by it in future eligibility redeterminations. As part of the project, DOM and MDHS are continuing to analyze all existing processes, procedures, and data sources and will be finalizing those policies as the project progresses. The remaining items in this Section are dependent on the enhanced real-time eligibility verification service (Section 3) being completed. **Updates to this Section will resume when Section 3 is completed.**

4.7 Referrals for fraud, misrepresentation, or inadequate documentation

Status: Complete

DOM and MDHS are continuing to confirm that the requested processes and policies in this Section are implemented in their respective agencies. Both agencies have implemented policy changes that required staff to refer changes or discrepancies that may affect program eligibility to appropriate agencies and divisions within 10 days. This includes suspected cases of fraud, misrepresentation, or inadequate documentation and cases where an individual is determined to be no longer eligible for the original program. In cases where fraud affecting program eligibility is substantiated, the agencies garnish wages and/or state income tax refunds until the state recovers an amount equal to the amount of benefits that were fraudulently received. Section 7 of the Medicaid and Human Services Transparency and Fraud Prevention Act has been implemented.

4.8 Reporting

Status: In-progress

DOM and MDHS acknowledge the request for a pre-development report as well as a post-implementation report referred to in Section 8. The pre-development report will be delivered at the end of the detailed requirements process and a minimum of thirty days before entering into a competitively bid contract or before renegotiating an existing contract with a current vendor. The post-implementation report will be completed 6 months after the implementation of the enhanced eligibility verification service. **Both reports will be delivered to the requested audiences when complete.**

4.9 Transparency in Medicaid

Status: Complete

DOM has completed the request for the data specified in Section 9 and has posted the following reports publicly on an external website. The reports can be found at the following address:

<https://medicaid.ms.gov/resources/legislative-resources/>

They are located under the “Medicaid and Human Services Transparency and Fraud Prevention Act Reports” and are titled:

- Medicaid Physician and Other Supplier National Provider Identifier (NPI) Aggregate Report, Calendar Year 2016
- Medicaid National Healthcare Common Procedure Coding System (HCPCS) Aggregate Report Calendar Year 2016

4.10 Work requirements

Status: Complete

As of January 2016, MDHS has not sought out, applied for, or accepted/renewed any waiver of requirements established under 7 USC Section 2015(o), except during a formal state or federal declaration of a natural disaster. **Section 10 of the Medicaid and Human Services Transparency and Fraud Prevention Act has been implemented.**

4.11 Federal asset limits for the Supplemental Nutrition Assistance Program

Status: In-progress

MDHS acknowledges the requirements of this section, "In no case shall the resource limit standards of the Supplemental Nutrition Assistance Program (SNAP) exceed the standards specified in 7 USC Section 2014(g)(1), unless expressly required by federal law. In no case shall categorical eligibility exempting households from these resource limits be granted for any noncash, in-kind or other benefit, unless expressly required by federal law." MDHS is dependent on the asset verification functionality that will be provided through the enhanced real-time eligibility verification service (Section 3) being completed to accomplish both requirements within Section 11. **Updates to this Section will resume when Section 3 is completed.**

4.12 Broad-based categorical eligibility

Status: In-progress

MDHS acknowledges the requirements of this section, "Broad-based categorical eligibility. (1) In no case shall categorical eligibility under 7 USC Section 2014(a) or 7 CFR Section 273.2(j)(2)(iii) be granted for any noncash, in-kind or other benefit unless expressly required by federal law for the Supplemental Nutrition Assistance Program (SNAP). (2) The Department of Human Services shall not apply gross income standards for food assistance higher than the standards specified in 7 USC Section 2014(c) unless expressly required by federal law. Categorical eligibility exempting households from such gross income standards requirements shall not be granted for any noncash, in-kind or other benefit, unless expressly required by federal law." MDHS is dependent on the asset verification functionality that will be provided through the enhanced real-time eligibility verification service (Section 3) being completed to accomplish the requirements within Section 1. **Updates to this Section will resume when Section 3 is completed.**

4.13 Sharing enrollee information across agencies

Status: In-progress

DOM and MDHS acknowledge the request to share eligibility information with each other within 30 business days when an enrollee has been disenrolled for any financial or nonfinancial reason that may result in the enrollee's disqualification for benefits with the other department, including the rationale for the action. Additionally, DOM and MDHS will establish procedures to re-determine eligibility for any enrollee whose eligibility or benefit levels could change as a result of new information provided by either agency. Additional details for Section 13 of the Medicaid and Human Services Transparency and Fraud Prevention Act will be addressed in a subsequent report, and as progress is made on the real-time eligibility verification service. The remaining items in this Section are dependent on the enhanced real-time eligibility verification service (Section 3) being completed. **Updates to this Section will resume when Section 3 is completed.**

4.14 Maximum family grant

Status: Complete

As a result of the Personal Responsibility and Work Opportunity Act of 1996, MDHS implemented policies specific to TANF recipients, limiting them to children already born or conceived at the time of initial application. Further, only children born into the family during the first 10 months of assistance or a child whose date of birth is prior to the end of the 10-month cap period for the case will be added to the case and eligible to receive benefits. **Section 14 of the Medicaid and Human Services Transparency and Fraud Prevention Act has been implemented.**

4.15 Verify identities and household composition, and all expenses of welfare applicants

Status: Complete

As of January 2018, MDHS has implemented policies regarding the verification of all expenses for all programs. Regarding verification of household composition, the department verifies household composition when questionable. Lastly, in accordance to 7 CFR 273.2 (a) (vii) Federal Regulations, MDHS

currently verifies identity. **Section 15 of the Medicaid and Human Services Transparency and Fraud Prevention Act has been implemented.**

4.16 Full cooperation with fraud investigations

Status: Prohibited by Federal Regulations

MDHS currently implements policies regarding TANF clients fully cooperating with fraud investigations by providing information or permitting the caseworker to obtain essential information to establish continued eligibility. Caseworkers proactively identify and review questionable cases. If conclusive information is not received, the case(s) are closed and reason for closure is fully documented. This also prevents those cases from entering into the fraud investigation process.

Alternatively, SNAP case closure as the result of noncompliance with a fraud investigation is not permitted by the Code of Federal Regulations. The Code of Federal Regulations, 7 CFR § 273, provides instances in which a case may be closed, or a participant denied benefits due to noncooperation with SNAP. Noncooperation is detailed in §273.2(d), §273.12(d), §273.11(o)(1). Noncooperation occurs at application, recertification, during a Quality Control review, or when failing to cooperate with child support services. §273.16(e)(5) requires cases to remain open, if the household is eligible, while awaiting a disqualification hearing. **Section 16 of the Medicaid and Human Services Transparency and Fraud Prevention Act is unable to be implemented as requested.**

4.17 Gaps in eligibility reporting

Status: Complete

As of January 2018, MDHS has implemented change reporting for all new applications. As ongoing cases come due for renewal of benefits, they will be converted from simplified reporting to change reporting. **Section 17 of the Medicaid and Human Services Transparency and Fraud Prevention Act has been implemented.**

4.18 Noncompliance with Temporary Assistance for Needy Families program rules

Status: In-progress

MDHS has requested guidance from the Administration of Children and Families (ACF) with respect to the potential penalty changes for non-compliance with the TANF Work Program. Because this section is closely tied to section 19, both in the eligibility system and in federal regulations, after policy is determined from ACF, FNS will require up to 90 days to review and comment on this major change notification, as it affects the SNAP program. **The processes and procedures requested in Section 18 of the Medicaid and Human Services Transparency and Fraud Prevention Act will be addressed in a subsequent report.**

4.19 Noncompliance with Supplemental Nutrition Assistance Program rules

Status: In-progress

As this section is closely tied to section 18, MDHS is currently working with ACF with respect to potential penalty changes for non-compliance with other means-tested programs as well as the SNAP

Employment and Training Program. FNS requires a 90-day review and comment window for this type of major change. After that process is complete, the changes in both the eligibility system and MDHS policy can be implemented. **The processes and procedures requested in Section 19 of the Medicaid and Human Services Transparency and Fraud Prevention Act will be addressed in a subsequent report.**

4.20 Out-of-state spending

Status: In-progress

MDHS acknowledges the request for the distribution of de-identified out-of-state spending data based on dollar amounts and separated by program. For the SNAP program, FNS has provided the dollar amount and number of transactions of SNAP benefits that are accessed or spent out-of-state, disaggregated by state. The data is not best optimized for display in a document, but has been placed for reference purposes in Appendix A. For the original version of the report, it can be found at the following link:

<http://www.mdhs.ms.gov/information-resources/media-news-room/>

For the TANF program, the request has been submitted to ACF, and an update to Section 20 will follow a subsequent report.

4.21 Public reporting

Status: In-progress

DOM and MDHS acknowledge the request for the annual distribution of de-identified recipient data within Section 21 of the Medicaid and Human Services Transparency and Fraud Prevention Act. **The annual delivery of this data will start with this submission of the House Bill 1090 Status Report, and will continue with each July submission, and is in Appendix B.**

4.22 Pilot program for photos on EBT cards

Status: In-progress

MDHS is continuing to review feasibility and cost/benefit of establishing a pilot program for photos on EBT cards, taking into account a possible longer-term rollout of placing photos on EBT cards. Additionally, the agency is gathering materials from other states that have also completed pilots of a similar nature. MDHS is aware that our current EBT vendor does not store Photo IDs, therefore a new photo or a stored photo from another source will be required for card replacement. MDHS has met with the Mississippi Department of Public Safety (MDPS) and has identified potential partnerships. MDHS feels that a partnership that involves the sharing of photos stored by MDPS may be a solution that will allow this pilot to move forward. **MDHS will update this section as progress is made.**

4.23 Limits on spending location

Status: Complete

Section 4004 of the Middle Class Tax Relief and Job Creation Act of 2012 (P.L. 112-96) requires states receiving TANF grants to “maintain policies and practices as necessary to prevent assistance provided under the State program funded under this part from being used in any electronic benefit transfer

transaction in any liquor store; any casino, gambling casino, or gaming establishment; or any retail establishment which provides adult-oriented entertainment in which performers disrobe or perform in an unclothed state for entertainment.” Additional limits on spending locations are prohibited by these federal regulations, though MDHS proactively works with each recipient requiring the acceptance of a Personal Responsibility contract acknowledging limits on spending locations and consequences thereof. Also, the federal law does not expressly prevent certain products from being purchased with TANF assistance via EBT transactions; rather it specifies locations where state policies and practices should prevent any transfer of TANF assistance via EBT transaction from occurring, regardless of the product being purchased. **Section 23 of the Medicaid and Human Services Transparency and Fraud Prevention Act has been implemented to the extent possible under Federal Regulations.**

4.24 Excessive EBT card loss

Status: Complete

MDHS has already implemented policies pursuant to Section 24(1), (2), and (3). Regarding Section 24(4), terminating the SNAP recipient’s benefits due to failure to make contact with a fraud investigator regarding excessive EBT card ordering is not permitted by the Code of Federal Regulations. The Code of Federal Regulations, 7 CFR § 273, provides instances in which a case may be closed, or a participant denied benefits due to noncooperation with SNAP. Noncooperation is detailed in §273.2(d), §273.12(d), §273.11(o)(1). Noncooperation occurs at application, recertification, during a Quality Control review, or when failing to cooperate with child support services. §273.16(e)(5) requires cases to remain open, if the household is eligible, while awaiting a disqualification hearing. **Section 24 of the Medicaid and Human Services Transparency and Fraud Prevention Act has been implemented to the extent possible under Federal Regulations.**

4.25 Timeframes

Status: Acknowledged

The department acknowledges the timeframes requested in this Section of the Medicaid and Human Services Transparency and Fraud Prevention Act.

5 Appendix A: House Bill 1090 – Section 20: Out of State Spending

MDHS has prepared the following responses to the subsections of House Bill 1090

- (a) The dollar amount and number of transactions of SNAP benefits that are accessed or spent out-of-state, disaggregated by state;
Agency Response: The dollar amount and number of transactions over a 12-month span starting in October 2017 and ending September 2017 can be found in Table 1 and 2: Spending by US State as well as Figure 1 and 2
- (b) The dollar amount and number of transactions of TANF benefits that are accessed or spent out-of-state, disaggregated by state;
Agency Response: MDHS is awaiting a response from ACF regarding the reporting of TANF benefits spent out of state
- (c) The dollar amount, number of transactions, and times of transactions of SNAP benefits that are accessed or spent in-state, disaggregated by retailer, institution, or location, unless expressly prohibited by federal law; and
Agency Response: The dollar amount and number of transactions over a 12 month span starting in October 2017 and ending September 2017 can be found in Tables 3A & 3B: Spending By Mississippi County (Purchase Amounts) and Tables 4A & 4B: Spending By Mississippi County (Total Transaction Counts) as well as Figure 3
NOTE: FNS will not release data by retailer or institution. In addition, when there are not enough transactions in a particular County, FNS will not release the data and reports it as redacted
- (d) The dollar amount, number of transactions, and time of transactions of TANF benefits that are accessed or spent in-state, disaggregated by retailer, institution, or location.
Agency Response: MDHS is awaiting a response from ACF regarding the reporting of TANF benefits spent in-state, disaggregated by retailer, institution, or location

6 Appendix B: House Bill 1090 – Section 21: Public Reporting

6.1 Report Design

This annual report will be divided into the following subsections.

1. The length of enrollment, disaggregated by program and eligibility group
2. The share of recipients concurrently enrolled in one or more additional means-tested programs, disaggregated by program and eligibility group and the number of means-tested programs recipients are concurrently enrolled in, disaggregated by program and eligibility group
3. The demographics and characteristics of recipients, disaggregated by program and eligibility group
4. The dollar amount spent on advertising and marketing for TANF, SNAP, Medicaid, and other means-tested programs, including both state and federal funds, disaggregated by program.

The data used for this report was gathered from MDHS with a back date or starting date of January 1, 2010. It was determined that for purposes of this report, the data would be most relevant from there going forward. All available DOM data, gathered from the State MMIS System, was used to tabulate the totals for this report. This historical information is only relevant for Section 6.1.1, Length of Enrollment. For the remaining subsections of the report, only active cases and persons were used to tabulate totals for presentation. **This report was created with data from a point in time, June 25, 2018 data from both agencies, but may not match other reports exactly as those may be created with data that has changed. For future reports, the agencies will be coordinating the extraction of data with month-end reporting for other purposes to match or get closer to other data that is reported on, so as not to cause confusion.**

6.1.1 Length of Enrollment

The length of enrollment for each of the programs and eligibility groups listed below was calculated based on the average length of time, in months, using recipients in continuous active status coverage.

TABLE 1: LENGTH OF ENROLLMENT

PROGRAM	RECENT LENGTH OF ENROLLMENT
SNAP	41.6 Months
TANF	12.5 Months
Medicaid Eligibility Groups	
Children	45 Months
Aged	68 Months
Disabled & Blind	132 Months
Adults	31 Months
CHIP	24 Months
Family Planning Waiver	10 Months

6.1.2 Recipients Enrolled in One or More Programs

Recipients that are concurrently enrolled in one or more means-tested programs and disaggregated by program as well as the share of recipients in each of the programs are listed in Table 2 below.

Note: (1) Population in Table 2B is non-duplicative. All recipients are counted once and placed in their appropriate categories based on the combination of programs they are currently active in (June 25, 2018).

(2) In this case, breaking down by eligibility group within Medicaid/CHIP will have no bearing on the numbers presented. Recipients can only be in one eligibility group at a time in each of the programs.

6.1.3 Demographics and Characteristics of Recipients

The demographics and characteristics of each the recipients have been broken down by Program and Eligibility Group into the following tables:

Note: These counts are independent by program and eligibility group, and will result in recipients being counted more than once as they may show up in both MDHS and DOM data for each of the programs they are active in.
